

323.7102 Procedures.

- (a) When required by the solicitation, offerors or quoters must include a Sustainable Acquisition Plan in their technical proposal addressing the environmental products and services for delivery under the resulting contract.
- (b) The contracting officer shall incorporate the final Sustainable Acquisition Plan into the contract.
- (c) The contracting officer shall ensure that sustainability is included as an evaluation factor in all applicable new contracts and orders when the acquisition utilizes a product or service code designated by HHS for supplies or services having sustainable acquisition attributes.
