

SUBPART 4.13 - PERSONAL IDENTITY VERIFICATION

(Revised January 30, 2022 through PROCLTR 2022-04)

Parent topic: PART 4 - ADMINISTRATIVE MATTERS

4.1302 Acquisition of approved products and services for personal identity verification.

(c) DLA Information Operations is responsible for determining compliance.

4.1303 Contract clause.

4.1303-90 Personal identity verification of contractor personnel.

The contracting officer shall insert procurement note H14, Contractor Personnel Security Requirements, in solicitations and contracts that contain FAR 52.204-9, Personal Identity Verification of Contractor Personnel, when contract performance requires contractor access to Federally controlled facility and/or access to a Federally controlled information system. Contractors requiring intermittent access for a period of less than six months shall obtain approval from the installation security office through the contracting officer. When the contractor employee(s) is/are required to obtain a Common Access Card (CAC) and DLA will serve as the Trusted Agent, follow the procedures in DLA SOP J72.001, Contractor Common Access Card (CAC) Issuance and Accountability Process for DLA Contracts (<https://dlamil.dps.mil/sites/Acquisition/Shared%20Documents/CONTRACTOR%20CAC%20SOP%20J72.001.pdf>).

For all contracts where contractor CACs and/or Installation Access Badges will be issued, contracting officers shall ensure that responsibilities for oversight and retrieval of contractor CACs and Installation Access Badges are addressed in the COR designation letter. If a COR is not designated, the contracting officer is responsible for oversight and retrieval of contractor CACs and Installation Access Badges issued under the contract.

If contract performance is to occur at a non-DLA site and the site has physical site and/or information technology security requirements, in addition to the DLA CAC requirements, the contracting officer shall identify those requirements and include them in the solicitation and subsequent contract.

H14 Contractor Personnel Security Requirements (JAN 2021)

(a) Work to be performed under this contract or task order may, in full or in part, be performed at the Defense Logistics Agency (DLA) Headquarters (HQ), DLA field activity office(s), or other Federally-controlled facilities. Prior to beginning work on a contract, DLA requires all contractor personnel working on the Federally-controlled facility to have, at a minimum, an initiated National Agency Check with Written Inquiries (NACI) or NACI equivalent and favorable completion of a Federal Bureau of Investigation (FBI) fingerprint check.

(b) Additionally, in accordance with Department of Defense (DoD) Regulation 5200.2-R, Personnel Security Programs, and DLA Issuance 4314, Personnel Security Program, all DoD contractor personnel who have access to Federally-controlled information systems must be assigned to positions which are designated at one of three information technology (IT) levels, each requiring a certain level of investigation and clearance, as follows:

(1) IT-I for an IT position requiring a single scope background investigation (SSBI) or SSBI equivalent;

(2) IT-II for an IT position requiring a National Agency check with Law and Credit (NACLC) or NACLC equivalent; and

(3) IT-III for an IT position requiring a NACI or equivalent.

Note: IT levels will be designated according to the criteria in DoD 5200.2-R.

(c) Previously completed security investigations may be accepted by the Government in lieu of new investigations if determined by the DLA Intelligence Personnel Security Office to be essentially equivalent in scope to the contract requirements. The length of time elapsed since the previous investigation will also be considered in determining whether a new investigation is warranted. To assist the Government in making this determination, the contractor must provide the following information to the respective DLA Intelligence Personnel Security Office immediately upon receipt of the contract. This information must be provided for each contractor employee who will perform work on a Federally-controlled facility and/or will require access to Federally-controlled information systems:

(1) Full name, with middle name, as applicable, with social security number;

(2) Citizenship status with date and place of birth;

(3) Proof of the individual's favorably adjudicated background investigation or NACI, consisting of identification of the type of investigation performed, date of the favorable adjudication, name of the agency that made the favorable adjudication, and name of the agency that performed the investigation;

(4) Company name, address, phone and fax numbers with email address;

(5) Location of on-site workstation or phone number if off-site (if known by the time of award); and

(6) Delivery order or contract number and expiration date; and name of the contracting officer.

(d) The contracting officer will ensure that the contractor is notified as soon as a determination is made by the assigned or cognizant DLA Intelligence Personnel Security Office regarding acceptance of the previous investigation and clearance level.

(1) If a new investigation is deemed necessary, the contractor and contracting officer will be notified by the respective DLA Personnel Security Office after appropriate checks in DoD databases have been made.

(2) If the contractor employee requires access to classified information and currently does not have the appropriate clearance level and/or an active security clearance, the DLA Intelligence Personnel Security Office will relay this information to the contractor and contracting officer for further action. Investigations for contractor employees requiring access to classified information must be initiated by the contractor Facility Security Officer (FSO).

(3) The contracting officer will ensure that the respective DLA Intelligence Personnel Security Office initiates investigations for contractor employees not requiring access to classified information (i.e., IT or unescorted entry).

(4) It is the contractor's responsibility to ensure that adequate information is provided and that each contractor employee completes the appropriate paperwork, as required either by the contracting officer or the DLA Intelligence Personnel Security Office, in order to begin the investigation process for the required clearance level.

(e) The contractor is responsible for ensuring that each contractor employee assigned to the position has the appropriate security clearance level.

(f) The contractor shall submit each request for IT access and investigation through the contracting officer to the assigned or cognizant DLA Intelligence Personnel Security Office. Requests shall include the following information and/or documentation:

(1) Standard Form (SF) 85, Questionnaire for Non-Sensitive Positions, or the SF 86, Questionnaire for National Security Positions (see note below);

(2) Proof of citizenship (i.e., an original or a certified copy of a birth certificate, passport, or naturalization certificate); and

(3) Form FD-258, Fingerprint Card (however, fingerprinting can be performed by the cognizant DLA Intelligence Personnel Security Office).

(Note to (f)(1) above: An investigation request is facilitated through use of the SF 85 or the SF 86. These forms with instructions as well as the Optional Form (OF) 306, Declaration for Federal Employment, which is required with submission of the SF85 or SF 86, are available at the Office of Personnel Management's (OPM) system called Electronic - Questionnaires for Investigations Processing (e-QIP). Hard copies of the SF85 and SF86 are available at OPM's web-site, www.opm.gov, but hard copies of the forms are not accepted.)

(g) Required documentation, listed above in paragraphs (f)(1) through (3), must be provided by the contractor as directed by the contracting officer to the cognizant DLA Intelligence Personnel Security Office at the time of fingerprinting or prior to the DLA Intelligence Personnel Security Office releasing the investigation to OPM.

(h) Upon completion of the NACI, NACLC, SSBI, or other sufficient, appropriate investigation, the results of the investigation will be forwarded by OPM to the appropriate adjudication facility for eligibility determination or the DLA Intelligence Personnel Security Office for review and determination regarding the applicant's suitability to occupy an unescorted entry position in performance of the DLA contract. Contractor personnel shall not commence work on this effort until the investigation has been favorably adjudicated or the contractor employee has been waived into

the position pending completion of adjudication. The DLA Intelligence Personnel Security Office will ensure that results of investigations will be sent by OPM to the Department of Defense, Consolidated Adjudications Facility (DoDCAF) or DLA Intelligence Personnel Security Office.

(i) A waiver for IT level positions to allow assignment of an individual contractor employee to commence work prior to completion of the investigation may be granted in emergency situations when it is determined that a delay would be harmful to national security. A request for waiver will be considered only after the Government is in receipt of the individual contractor employee's completed forms, the background investigation has been initiated, and favorable FBI fingerprint check has been conducted. The request for a waiver must be approved by the Commander/Director or Deputy Commander/Director of the site. The cognizant DLA Intelligence Personnel Security Office reserves the right to determine whether a waiver request will be forwarded for processing. The individual contractor employee for which the waiver is being requested may not be assigned to a position, that is, physically work at the Federally-controlled facility and/or be granted access to Federally-controlled information systems, until the waiver has been approved.

(j) The requirements of this procurement note apply to the prime contractor and any subcontractors the prime contractor may employ during the course of this contract, as well as any temporary employees that may be hired by the contractor. The Government retains the right to request removal of contractor personnel, regardless of prior clearance or adjudication status whose actions, while assigned to this contract, who are determined by the contracting officer to conflict with the interests of the Government. If such removal occurs, the contractor shall assign qualified personnel, with the required investigation, to any vacancy.

(k) All contractor personnel who are granted access to Government and/or Federally-controlled information systems shall observe all local automated information system (AIS) security policies and procedures. Violations of local AIS security policy, such as password sharing, performing personal work, file access violations, or browsing files outside the scope of the contract, will result in removal of the contractor employee from Government property and referral to the contractor for appropriate disciplinary action. Actions taken by the contractor in response to a violation will be evaluated and will be reflected in the contractor's performance assessment for use in making future source selection decisions. In addition, based on the nature and extent of any violations of AIS security policy, the Government will consider whether it needs to pursue any other actions under the contract such as a possible termination.

(l) The contractor may also be required to obtain a Common Access Card (CAC) or Installation Access Badge for each contractor employee in accordance with procedures established by DLA. When a CAC is required, the contracting officer will ensure that the contractor follows the requirements of Homeland Security Presidential Directive 12 and any other CAC-related requirements in the contract. The contractor shall provide, on a monthly basis, a listing of all personnel working under the contract that have CACs.

(m) See procurement note H16, Operations Security (OPSEC) For On-site Contractors, for required OPSEC training.

(n) When a contractor employee who has been granted a clearance is removed from the contract, the contractor shall provide an appropriately trained substitute who has met or will meet the investigative requirements of this procurement note. The substitute may not begin work on the contract without written documentation, signed by the contracting officer, stating that the new contractor employee has met one of the criteria set forth in paragraphs (c), (d), or (i) of this procurement note (i.e., acceptance of a previously completed security investigation, satisfactory completion of a new investigation, or a waiver allowing work to begin pending completion of an

investigation). Contractor individual employees removed from this contract as a result of a violation of local AIS security policy are removed for the duration of the contract.

(o) The following shall be completed for every employee of the Government contractor working on this contract upon contract expiration. Additionally, the contractor shall notify the contracting officer immediately in writing whenever a contractor employee working on this contract resigns, is reassigned, is terminated, or no longer requires admittance to the Federally-controlled facility or access to Federally-controlled information systems. When the contractor employee departs, the contractor will relay departure information to the cognizant DLA Intelligence Personnel Security Office and the Trusted Agent (TA) that entered the individual into the Trusted Associated Sponsorship System (TASS), so appropriate databases can be updated. The contractor will ensure each departed employee has completed the DLA J6 Out-Processing Checklist, when applicable, for the necessary security briefing, has returned any Government furnished equipment, returned the DoD CAC and DLA (or equivalent Installation) badge, returned any DoD or DLA vehicle decal, and requested deletion of local area network account with a prepared Department of Defense (DD) Form 2875. The contractor will be responsible for any costs involved for failure to complete the out-processing, including recovery of Government property and investigation involved.

(p) These contractor security requirements do not excuse the contractor from meeting the delivery schedule/performance requirements set forth in the contract, or waive the delivery schedule/performance requirements in any way. The contractor shall meet the required delivery schedule/performance requirements unless the contracting officer grants a waiver or extension.

(q) The contractor shall not bill for personnel, who are not working on the contract while that contractor employee's clearance investigation is pending.

4.1303-91 Operations Security (OPSEC) For On-site Contractors.

The contracting officer shall insert procurement note H16 in solicitations and contracts when contract performance requires contractors to have intermittent and/or routine physical access to a Federally-controlled facility and/or intermittent and/or routine access to a Federally controlled information system.

H16 Operations Security (OPSEC) For On-site Contractors (DEC 2021)

(1) Contractors shall complete the following courses:

(a) Center for the Development of Security Excellence Operations Security (OPSEC) Awareness;

(b) Unauthorized Disclosure of Classified Information for DoD and Industry;

(c) Insider Threat Awareness; and

(d) Introduction to Information Security courses. These courses are located at Security Awareness Hub (<https://securityawareness.usalearning.gov/index.html>).

(2) The courses identified at subparagraph (1) above are required for all contractors that perform work on-site at a DLA or DoD facility; or for contractors that perform work off-site and access a Federally-controlled information system.

(3) The contractor shall immediately direct its workforce who are performing services for the Government to take the training after contract award. The contractor shall provide evidence of this training to the contracting officer representative or the contracting officer no later than five business days after contract award or prior to accessing the installation or a Federally-controlled information system, whichever occurs first.

(4) Annual refresher training is required and consists of re-accomplishing all of the courses listed in subparagraph (1) above. The contractor shall keep certificates on record for inspection or submission as required by the Government at the Government's discretion.
