FAC 2005-73 SUMMARY OF ITEMS

Federal Acquisition Circular (FAC) 2005-73 amends the Federal Acquisition Regulation (FAR) as specified below:

Item I—Positive Law Codification of Title 41 (FAR Case 2011-018)

This final rule amends the Federal Acquisition Regulation (FAR) to conform references throughout the FAR to the new Positive Law Codification of Title 41, United States Code, "Public Contracts" and other conforming changes. The new codification of Title 41 was enacted on January 4, 2011, under Public Law 111-350. Additionally, the rule completes the implementation of the recodification of Title 40. The codifications reorganized and renumbered the statutes, but did not change the meaning or legal effect.

A table at FAR 1.110 provides the popular names of Acts, the present statutory citation, and the new titles of the statutes. For example the "Service Contract Act of 1965" is now the "Service Contract Labor Standards statute".

The rule does not have a significant effect beyond the internal operating procedures of the Government, and consequently does not have a significant cost or administrative impact on entities either large or small.

8.000 Scope of part.

This part deals with prioritizing sources of supplies and services for use by the Government.

8.001 General.

Regardless of the source of supplies or services to be acquired, information technology acquisitions shall comply with capital planning and investment control requirements in [40 U.S.C. 11312](#) and OMB Circular A-130.

8.002 Priorities for use of mandatory Government sources.

(a) Except as required by [8.003](#), or as otherwise provided by law, agencies shall satisfy requirements for supplies and services from or through the sources and publications listed below in descending order of priority:

(1) Supplies.

- (i) Inventories of the requiring agency.
- (ii) Excess from other agencies (see [subpart 8.1](#)).
- (iii) Federal Prison Industries, Inc. (see [subpart 8.6](#)).
- (iv) Supplies which are on the Procurement List maintained by the Committee for Purchase From People Who Are Blind or Severely Disabled (see [subpart 8.7](#)).

(v) Wholesale supply sources, such as stock programs of the General Services Administration (GSA) (see 41 CFR 101-26.3), the Defense Logistics Agency (see 41 CFR 101-26.6), the Department of Veterans Affairs (see 41 CFR 101-26.704), and military inventory control points.

(2) *Services.* Services that are on the Procurement List maintained by the Committee for Purchase From People Who Are Blind or Severely Disabled (see [subpart 8.7](#)).

(b) Sources other than those listed in paragraph (a) of this section may be used as prescribed in 41 CFR 101-26.301 and in an unusual and compelling urgency as prescribed in [6.302-2](#) and in 41 CFR 101-25.101-5.

(c) The statutory obligation for Government agencies to satisfy their requirements for supplies or services available from the Committee for Purchase From People Who Are Blind or Severely Disabled also applies when contractors purchase the supplies or services for Government use.

8.003 Use of other mandatory sources.

Agencies shall satisfy requirements for the following supplies or services from or through specified sources, as applicable:

- (a) Public utility services (see [part 41](#)).
- (b) Printing and related supplies (see [subpart 8.8](#)).
- (c) Leased motor vehicles (see [subpart 8.11](#)).
- (d) Strategic and critical materials (*e.g.*, metals and ores) from inventories exceeding Defense National Stockpile requirements (detailed information is available from the DLA Strategic Materials, 8725 John J. Kingman Rd., Suite 3229, Fort Belvoir, VA 22060-6223).

(e) Helium (see [subpart 8.5](#)—Acquisition of Helium).

8.004 Use of other sources.

If an agency is unable to satisfy requirements for supplies and services from the mandatory sources listed in [8.002](#) and [8.003](#), agencies are encouraged to consider satisfying requirements from or through the non-mandatory sources listed in paragraph (a) of this section (not listed in any order of priority) before considering the non-mandatory source listed in paragraph (b) of this section. When satisfying requirements from non-mandatory sources, see [7.105\(b\)](#) and [part 19](#) regarding consideration of small business, veteran-owned small business, service-disabled veteran-owned small business, HUB-Zone small business, small disadvantaged business (including 8(a) participants), and women-owned small business concerns.

(a)(1) *Supplies.* Federal Supply Schedules, Government-wide acquisition contracts, multi-agency contracts, and any other procurement instruments intended for use by multiple agencies, including blanket purchase agreements (BPAs) under Federal Supply Schedule contracts (*e.g.*, Federal Strategic Sourcing Initiative (FSSI) agreements accessible at <http://www.gsa.gov/fssi> (see also [5.601](#))).

(2) *Services.* Agencies are encouraged to consider Federal Prison Industries, Inc., as well as the sources listed in paragraph (a)(1) of this section (see [subpart 8.6](#)).

(b) Commercial sources (including educational and non-profit institutions) in the open market.

8.005 Contract clause.

Insert the clause at [52.208-9](#), Contractor Use of Mandatory Sources of Supply and Services, in solicitations and contracts that require a contractor to provide supplies or services for Government use that are on the Procurement List maintained by the Committee for Purchase From People Who Are Blind or Severely Disabled. The contracting officer shall identify in the contract schedule the supplies or services that shall be purchased from a mandatory source and the specific source.

Subpart 8.1—Excess Personal Property**8.101 [Reserved]****8.102 Policy.**

When practicable, agencies must use excess personal property as the first source of supply for agency and cost-reimbursement contractor requirements. Agency personnel must make positive efforts to satisfy agency requirements by obtaining and using excess personal property (including that suitable for adaptation or substitution) before initiating a contract action.

8.103 Information on available excess personal property.

Information regarding the availability of excess personal property can be obtained through—

(a) Review of excess personal property catalogs and bulletins issued by the General Services Administration (GSA);

(b) Personal contact with GSA or the activity holding the property;

(c) Submission of supply requirements to the regional offices of GSA (GSA Form 1539, Request for Excess Personal Property, is available for this purpose); and

(d) Examination and inspection of reports and samples of excess personal property in GSA regional offices.

8.104 Obtaining nonreportable property.

GSA will assist agencies in meeting their requirements for supplies of the types excepted from reporting as excess by the Federal Management Regulations (41 CFR 102-36.90). Federal agencies requiring such supplies should contact the appropriate GSA regional office.

tem (FAPIS), (available at www.ppirs.gov, then select FAPIS).

(b) The contracting officer shall consider all the information in FAPIS and other past performance information (see subpart [42.15](#)) when making a responsibility determination. For source selection evaluations of past performance, see [15.305\(a\)\(2\)](#). Contracting officers shall use sound judgment in determining the weight and relevance of the information contained in FAPIS and how it relates to the present acquisition. Since FAPIS may contain information on any of the offeror's previous contracts and information covering a five-year period, some of that information may not be relevant to a determination of present responsibility, *e.g.*, a prior administrative action such as debarment or suspension that has expired or otherwise been resolved, or information relating to contracts for completely different products or services.

(c) If the contracting officer obtains relevant information from FAPIS regarding criminal, civil, or administrative proceedings in connection with the award or performance of a Government contract; terminations for default or cause; determinations of nonresponsibility because the contractor does not have a satisfactory performance record or a satisfactory record of integrity and business ethics; or comparable information relating to a grant, the contracting officer shall, unless the contractor has already been debarred or suspended—

(1) Promptly request such additional information from the offeror as the offeror deems necessary in order to demonstrate the offeror's responsibility to the contracting officer (but see [9.405](#)); and

(2) Notify, prior to proceeding with award, in accordance with agency procedures (see [9.406-3\(a\)](#) and [9.407-3\(a\)](#)), the agency official responsible for initiating debarment or suspension action, if the information appears appropriate for the official's consideration.

(d) The contracting officer shall document the contract file for each contract in excess of the simplified acquisition threshold to indicate how the information in FAPIS was considered in any responsibility determination, as well as the action that was taken as a result of the information. A contracting officer who makes a nonresponsibility determination is required to document that information in FAPIS in accordance with [9.105-2](#) (b)(2).

9.104-7 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the provision at [52.209-5](#), Certification Regarding Responsibility Matters, in solicitations where the contract value is expected to exceed the simplified acquisition threshold.

(b) The contracting officer shall insert the provision at [52.209-7](#), Information Regarding Responsibility Matters, in solicitations where the resultant contract value is expected to exceed \$500,000.

(c) The contracting officer shall insert the clause at [52.209-9](#), Updates of Publicly Available Information Regarding Responsibility Matters—

(1) In solicitations where the resultant contract value is expected to exceed \$500,000; and

(2) In contracts in which the offeror checked "has" in paragraph (b) of the provision at [52.209-7](#).

9.105 Procedures.

9.105-1 Obtaining information.

(a) Before making a determination of responsibility, the contracting officer shall possess or obtain information sufficient to be satisfied that a prospective contractor currently meets the applicable standards in [9.104](#).

(b)(1) Generally, the contracting officer shall obtain information regarding the responsibility of prospective contractors, including requesting preaward surveys when necessary (see [9.106](#)), promptly after a bid opening or receipt of offers. However, in negotiated contracting, especially when research and development is involved, the contracting officer may obtain this information before issuing the request for proposals. Requests for information shall ordinarily be limited to information concerning—

(i) The low bidder; or

(ii) Those offerors in range for award.

(2) Preaward surveys shall be managed and conducted by the surveying activity.

(i) If the surveying activity is a contract administration office—

(A) That office shall advise the contracting officer on prospective contractors' financial competence and credit needs; and

(B) The administrative contracting officer shall obtain from the auditor any information required concerning the adequacy of prospective contractors' accounting systems and these systems' suitability for use in administering the proposed type of contract.

(ii) If the surveying activity is not a contract administration office, the contracting officer shall obtain from the auditor any information required concerning prospective contractors' financial competence and credit needs, the adequacy of their accounting systems, and these systems' suitability for use in administering the proposed type of contract.

(3) Information on financial resources and performance capability shall be obtained or updated on as current a basis as is feasible up to the date of award.

(c) In making the determination of responsibility, the contracting officer shall consider information in FAPIS (see [9.104-6](#)), including information that is linked to FAPIS such as from the System for Award Management Exclusions and the Past Performance Information Retrieval System (PPIRS), and any other relevant past performance information (see

[9.104-1\(c\)](#) and subpart [Subpart 42.15](#)). In addition, the contracting officer should use the following sources of information to support such determinations:

(1) Records and experience data, including verifiable knowledge of personnel within the contracting office, audit offices, contract administration offices, and other contracting offices.

(2) The prospective contractor-including bid or proposal information (including the certification at [52.209-5](#) or [52.212-3\(h\)](#) (see [9.104-5](#))), questionnaire replies, financial data, information on production equipment, and personnel information.

(3) Commercial sources of supplier information of a type offered to buyers in the private sector.

(4) Preaward survey reports (see [9.106](#)).

(5) Other sources such as publications; suppliers, sub-contractors, and customers of the prospective contractor; financial institutions; Government agencies; and business and trade associations.

(d) Contracting offices and cognizant contract administration offices that become aware of circumstances casting doubt on a contractor's ability to perform contracts successfully shall promptly exchange relevant information.

9.105-2 Determinations and documentation.

(a) *Determinations.* (1) The contracting officer's signing of a contract constitutes a determination that the prospective contractor is responsible with respect to that contract. When an offer on which an award would otherwise be made is rejected because the prospective contractor is found to be non-responsible, the contracting officer shall make, sign, and place in the contract file a determination of nonresponsibility, which shall state the basis for the determination.

(2) If the contracting officer determines that a responsive small business lacks certain elements of responsibility, the contracting officer shall comply with the procedures in [Subpart 19.6](#). When a Certificate of Competency is issued for a small business concern (see [Subpart 19.6](#)), the contracting officer shall accept the Small Business Administration's decision to issue a Certificate of Competency and award the contract to the concern.

(b) *Support documentation.* (1) Documents and reports supporting a determination of responsibility or nonresponsibility, including any preaward survey reports, the use of FAPIIS information (see [9.104-6](#)), and any applicable Certificate of Competency, must be included in the contract file.

(2)(i) The contracting officer shall document the determination of nonresponsibility in FAPIIS (available at www.cpars.gov, then select FAPIIS) if—

(A) The contract is valued at more than the simplified acquisition threshold;

(B) The determination of nonresponsibility is based on lack of satisfactory performance record or satisfactory record of integrity and business ethics; and

(C) The Small Business Administration does not issue a Certificate of Competency.

(ii) The contracting officer is responsible for the timely submission, within 3 working days, and sufficiency, and accuracy of the documentation regarding the nonresponsibility determination.

(iii) As required by section 3010 of the Supplemental Appropriations Act, 2010 (Pub. L. 111-212), all information posted in FAPIIS on or after April 15, 2011, except past performance reviews, will be publicly available. FAPIIS consists of two segments—

(A) The non-public segment, into which Government officials and contractors post information, which can only be viewed by—

(1) Government personnel and authorized users performing business on behalf of the Government; or

(2) An offeror or contractor, when viewing data on itself; and

(B) The publicly-available segment, to which all data in the non-public segment of FAPIIS is automatically transferred after a waiting period of 14 calendar days, except for—

(1) Past performance reviews required by subpart [42.15](#);

(2) Information that was entered prior to April 15, 2011; or

(3) Information that is withdrawn during the 14-calendar-day waiting period by the Government official who posted it in accordance with paragraph (b)(2)(iv) of this section.

(iv) The contracting officer, or any other Government official, shall not post any information in the non-public segment of FAPIIS that is covered by a disclosure exemption under the Freedom of Information Act. If the contractor asserts within 7 calendar days, to the Government official who posted the information, that some of the information posted to the non-public segment of FAPIIS is covered by a disclosure exemption under the Freedom of Information Act, the Government official who posted the information must within 7 calendar days remove the posting from FAPIIS and resolve the issue in accordance with agency Freedom of Information Act procedures, prior to reposting the releasable information.

9.105-3 Disclosure of preaward information.

(a) Except as provided in [Subpart 24.2](#), Freedom of Information Act, information (including the preaward survey report) accumulated for purposes of determining the responsibility of a prospective contractor shall not be released or disclosed outside the Government.

Subpart 9.2—Qualifications Requirements

9.200 Scope of subpart.

This subpart implements [10 U.S.C. 2319](#) and [41 U.S.C.253c](#) and prescribes policies and procedures regarding qualification requirements and the acquisitions that are subject to such requirements.

9.201 Definitions.

As used in this subpart—

“Qualified bidders list (QBL)” means a list of bidders who have had their products examined and tested and who have satisfied all applicable qualification requirements for that product or have otherwise satisfied all applicable qualification requirements.

“Qualified manufacturers list (QML)” means a list of manufacturers who have had their products examined and tested and who have satisfied all applicable qualification requirements for that product.

9.202 Policy.

(a)(1) The head of the agency or designee shall, before establishing a qualification requirement, prepare a written justification—

(i) Stating the necessity for establishing the qualification requirement and specifying why the qualification requirement must be demonstrated before contract award;

(ii) Estimating the likely costs for testing and evaluation which will be incurred by the potential offeror to become qualified; and

(iii) Specifying all requirements that a potential offeror (or its product) must satisfy in order to become qualified. Only those requirements which are the least restrictive to meet the purposes necessitating the establishment of the qualification requirements shall be specified.

(2) Upon request to the contracting activity, potential offerors shall be provided—

(i) All requirements that they or their products must satisfy to become qualified; and

(ii) At their expense (but see [9.204\(a\)\(2\)](#) with regard to small businesses), a prompt opportunity to demonstrate their abilities to meet the standards specified for qualification using qualified personnel and facilities of the agency concerned, or of another agency obtained through interagency agreements or under contract, or other methods approved by the agency (including use of approved testing and evaluation services not provided under contract to the agency).

(3) If the services in (a)(2)(ii) of this section are provided by contract, the contractors selected to provide testing and evaluation services shall be—

(i) Those that are not expected to benefit from an absence of additional qualified sources; and

(ii) Required by their contracts to adhere to any restriction on technical data asserted by the potential offeror seeking qualification.

(4) A potential offeror seeking qualification shall be promptly informed as to whether qualification is attained and, in the event it is not, promptly furnished specific reasons why qualification was not attained.

(b) When justified under the circumstances, the agency activity responsible for establishing a qualification requirement shall submit to the competition advocate for the procuring activity responsible for purchasing the item subject to the qualification requirement, a determination that it is unreasonable to specify the standards for qualification which a prospective offeror (or its product) must satisfy. After considering any comments of the competition advocate reviewing the determination, the head of the procuring activity may waive the requirements of [9.202\(a\)\(1\)\(ii\)](#) through (4) for up to 2 years with respect to the item subject to the qualification requirement. A copy of the waiver shall be furnished to the head of the agency or other official responsible for actions under [9.202\(a\)\(1\)](#). The waiver authority provided in this paragraph does not apply with respect to qualification requirements contained in a QPL, QML, or QBL.

(c) If a potential offeror can demonstrate to the satisfaction of the contracting officer that the potential offeror (or its product) meets the standards established for qualification or can meet them before the date specified for award of the contract, a potential offeror may not be denied the opportunity to submit and have considered an offer for a contract solely because the potential offeror—

(1) Is not on a QPL, QML, or QBL maintained by the Department of Defense (DoD) or the National Aeronautics and Space Administration (NASA); or

(2) Has not been identified as meeting a qualification requirement established after October 19, 1984, by DoD or NASA; or

(3) Has not been identified as meeting a qualification requirement established by a civilian agency (not including NASA).

(d) The procedures in [Subpart 19.6](#) for referring matters to the Small Business Administration are not mandatory on the contracting officer when the basis for a referral would involve a challenge by the offeror to either the validity of the qualification requirement or the offeror’s compliance with such requirement.

(e) The contracting officer need not delay a proposed award in order to provide a potential offeror with an opportunity to demonstrate its ability to meet the standards specified for qualification. In addition, when approved by the head of an agency or designee, a procurement need not be delayed in order to comply with [9.202\(a\)](#).

(f) Within 7 years following enforcement of a QPL, QML, or QBL by DoD or NASA, or within 7 years after any quali-

qualification requirement was originally established by a civilian agency other than NASA, the qualification requirement shall be examined and revalidated in accordance with the requirements of 9.202(a). For DoD and NASA, qualification requirements other than QPL's, QML's and QBL's shall be examined and revalidated within 7 years after establishment of the requirement under 9.202(a). Any periods for which a waiver under 9.202(b) is in effect shall be excluded in computing the 7 years within which review and revalidation must occur.

9.203 QPL's, QML's, and QBL's.

(a) Qualification and listing in a QPL, QML, or QBL is the process by which products are obtained from manufacturers or distributors, examined and tested for compliance with specification requirements, or manufacturers or potential offerors, are provided an opportunity to demonstrate their abilities to meet the standards specified for qualification. The names of successful products, manufacturers, or potential offerors are included on lists evidencing their status. Generally, qualification is performed in advance and independently of any specific acquisition action. After qualification, the products, manufacturers, or potential offerors are included in a Federal or Military QPL, QML, or QBL. (See 9.202(a)(2) with regard to any product, manufacturer, or potential offeror not yet included on an applicable list.)

(b) Specifications requiring a qualified product are included in the following publications:

(1) GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR 101-29.1.

(2) Department of Defense Acquisition Streamlining and Standardization Information System (ASSIST) at (<https://assist.dla.mil/online/start/>).

(c) Instructions concerning qualification procedures are included in the following publications:

(1) Federal Standardization Manual, FSPM-0001.

(2) Defense Standardization Manual 4120.24-M, Appendix 2, as amended by Military Standards 961 and 962.

(d) The publications listed in paragraphs (b) and (c) of this section are sold to the public. The publications in paragraphs (b)(1) and (c)(1) of this section may be obtained from the addressee in 11.201(d)(1). The publications in paragraphs (b)(2) and (c)(2) of this section may be obtained from the addressee in 11.201(d)(2).

9.204 Responsibilities for establishment of a qualification requirement.

The responsibilities of agency activities that establish qualification requirements include the following:

(a) Arranging publicity for the qualification requirements. If active competition on anticipated future qualification requirements is likely to be fewer than two manufacturers or the products of two manufacturers, the activity responsible for establishment of the qualification requirements must—

(1) Periodically furnish through the Governmentwide point of entry (GPE) a notice seeking additional sources or products for qualification unless the contracting officer determines that such publication would compromise the national security.

(2) Bear the cost of conducting the specified testing and evaluation (excluding the costs associated with producing the item or establishing the production, quality control, or other system to be tested and evaluated) for a small business concern or a product manufactured by a small business concern which has met the standards specified for qualification and which could reasonably be expected to compete for a contract for that requirement. However, such costs may be borne only if it is determined in accordance with agency procedures that such additional qualified sources or products are likely to result in cost savings from increased competition for future requirements sufficient to amortize the costs incurred by the agency within a reasonable period of time, considering the duration and dollar value of anticipated future requirements. A prospective contractor requesting the United States to bear testing and evaluation costs must certify as to its status as a small business concern under Section 3 of the Small Business Act in order to receive further consideration.

(b) Qualifying products that meet specification requirements.

(c) Listing manufacturers and suppliers whose products are qualified in accordance with agency procedures.

(d) Furnishing QPL's, QML's, or QBL's or the qualification requirements themselves to prospective offerors and the public upon request (see 9.202(a)(2)(i)).

(e) Clarifying, as necessary, qualification requirements.

(f) In appropriate cases, when requested by the contracting officer, providing concurrence in a decision not to enforce a qualification requirement for a solicitation.

(g) Withdrawing or omitting qualification of a listed product, manufacturer or offeror, as necessary.

(h) Advising persons furnished any list of products, manufacturers or offerors meeting a qualification requirement and suppliers whose products are on any such list that—

(1) The list does not constitute endorsement of the product, manufacturer, or other source by the Government;

(2) The products or sources listed have been qualified under the latest applicable specification;

(3) The list may be amended without notice;

(4) The listing of a product or source does not release the supplier from compliance with the specification; and

(5) Use of the list for advertising or publicity is permitted. However, it must not be stated or implied that a particular product or source is the only product or source of that type qualified, or that the Government in any way recommends or endorses the products or the sources listed.

Subpart 11.2—Using and Maintaining Requirements Documents

11.201 Identification and availability of specifications.

(a) Solicitations citing requirements documents listed in the General Services Administration (GSA) Index of Federal Specifications, Standards and Commercial Item Descriptions, the DoD Acquisition Streamlining and Standardization Information System (ASSIST), or other agency index shall identify each document’s approval date and the dates of any applicable amendments and revisions. Do not use general identification references, such as “the issue in effect on the date of the solicitation.” Contracting offices will not normally furnish these cited documents with the solicitation, except when—

(1) The requirements document must be furnished with the solicitation to enable prospective contractors to make a competent evaluation of the solicitation;

(2) In the judgment of the contracting officer, it would be impracticable for prospective contractors to obtain the documents in reasonable time to respond to the solicitation; or

(3) A prospective contractor requests a copy of a Government promulgated requirements document.

(b) Contracting offices shall clearly identify in the solicitation any pertinent documents not listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions or ASSIST. Such documents shall be furnished with the solicitation or specific instructions shall be furnished for obtaining or examining such documents.

(c) When documents refer to other documents, such references shall—

(1) Be restricted to documents, or appropriate portions of documents, that apply in the acquisition;

(2) Cite the extent of their applicability;

(3) Not conflict with other documents and provisions of the solicitation; and

(4) Identify all applicable first tier references.

52.211-5 Material Requirements.

As prescribed in [11.304](#), insert the following clause:

MATERIAL REQUIREMENTS (AUG 2000)

(a) *Definitions.*

As used in this clause—

“New” means composed of previously unused components, whether manufactured from virgin material, recovered material in the form of raw material, or materials and by-products generated from, and reused within, an original manufacturing process; *provided* that the supplies meet contract requirements, including but not limited to, performance, reliability, and life expectancy.

“Reconditioned” means restored to the original normal operating condition by readjustments and material replacement.

“Recovered material” means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

“Remanufactured” means factory rebuilt to original specifications.

“Virgin material” means—

(1) Previously unused raw material, including previously unused copper, aluminum, lead, zinc, iron, other metal or metal ore; or

(2) Any undeveloped resource that is, or with new technology will become, a source of raw materials.

(b) Unless this contract otherwise requires virgin material or supplies composed of or manufactured from virgin material, the Contractor shall provide supplies that are new, reconditioned, or remanufactured, as defined in this clause.

(c) A proposal to provide unused former Government surplus property shall include a complete description of the material, the quantity, the name of the Government agency from which acquired, and the date of acquisition.

(d) A proposal to provide used, reconditioned, or remanufactured supplies shall include a detailed description of such supplies and shall be submitted to the Contracting Officer for approval.

(e) Used, reconditioned, or remanufactured supplies, or unused former Government surplus property, may be used in contract performance if the Contractor has proposed the use of such supplies, and the Contracting Officer has authorized their use.

(End of clause)

52.211-6 Brand Name or Equal.

As prescribed in [11.107\(a\)](#), insert the following provision:

BRAND NAME OR EQUAL (AUG 1999)

(a) If an item in this solicitation is identified as “brand name or equal,” the purchase description reflects the characteristics and level of quality that will satisfy the Government’s needs. The salient physical, functional, or performance characteristics that “equal” products must meet are specified in the solicitation.

(b) To be considered for award, offers of “equal” products, including “equal” products of the brand name manufacturer, must—

(1) Meet the salient physical, functional, or performance characteristic specified in this solicitation;

(2) Clearly identify the item by—

(i) Brand name, if any; and

(ii) Make or model number;

(3) Include descriptive literature such as illustrations, drawings, or a clear reference to previously furnished descriptive data or information available to the Contracting Officer; and

(4) Clearly describe any modifications the offeror plans to make in a product to make it conform to the solicitation requirements. Mark any descriptive material to clearly show the modifications.

(c) The Contracting Officer will evaluate “equal” products on the basis of information furnished by the offeror or identified in the offer and reasonably available to the Contracting Officer. The Contracting Officer is not responsible for locating or obtaining any information not identified in the offer.

(d) Unless the offeror clearly indicates in its offer that the product being offered is an “equal” product, the offeror shall provide the brand name product referenced in the solicitation.

(End of provision)

52.211-7 Alternatives to Government-Unique Standards.

As prescribed in [11.107\(b\)](#), insert the following provision:

ALTERNATIVES TO GOVERNMENT-UNIQUE STANDARDS (NOV 1999)

(a) This solicitation includes Government-unique standards. The offeror may propose voluntary consensus standards that meet the Government’s requirements as alternatives to the Government-unique standards. The Government will accept use of the voluntary consensus standard instead of the Government-unique standard if it meets the Government’s requirements unless inconsistent with law or otherwise impractical.

(b) If an alternative standard is proposed, the offeror must furnish data and/or information regarding the alternative in sufficient detail for the Government to determine if it meets the Government’s requirements. Acceptance of the alternative standard is a unilateral decision made solely at the discretion of the Government.

52.212-1 Instructions to Offerors—Commercial Items.

As prescribed in [12.301\(b\)\(1\)](#), insert the following provision:

INSTRUCTIONS TO OFFERORS—COMMERCIAL ITEMS
(APR 2014)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet ([SF 1449](#)). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the [SF 1449](#), letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) “Remit to” address, if different than mailing address;
- (8) A completed copy of the representations and certifications at FAR [52.212-3](#) (see FAR [52.212-3\(b\)](#)) for those representations and certifications that the offeror shall complete electronically);
- (9) Acknowledgment of Solicitation Amendments;
- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (11) If the offer is not submitted on the [SF 1449](#), include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender’s request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) *Late submissions, modifications, revisions, and withdrawals of offers.* (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government’s control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation

on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) *Availability of requirements documents cited in the solicitation*. (1)(i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, and copies of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained for a fee by submitting a request to—

(4) Nongovernment (voluntary) standards must be obtained from the organization responsible for their preparation, publication, or maintenance.

(j) *Data Universal Numbering System (DUNS) Number*. (Applies to all offers exceeding \$3,000, and offers of \$3,000 or less if the solicitation requires the Contractor to be registered in the System for Award Management (SAM) database.) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" or "DUNS+4" followed by the DUNS or DUNS+4 number that identifies the offeror's name and address. The DUNS+4 is the DUNS number plus a 4-character suffix that may be assigned at the discretion of the offeror to establish additional SAM records for identifying alternative Electronic Funds Transfer (EFT) accounts (see FAR [Subpart 32.11](#)) for the same concern. If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one. An offeror within the United States may contact Dun and Bradstreet by calling 1-866-705-5711 or via the internet at <http://fedgov.dnb.com/webform>. An offeror located outside the United States must contact the local Dun and Bradstreet office for a DUNS number. The offeror should indicate that it is an offeror for a Government contract when contacting the local Dun and Bradstreet office.

(k) *System for Award Management*. Unless exempted by an addendum to this solicitation, by submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the SAM database prior to award, during performance and through final payment of any contract resulting from this solicitation. If the Offeror does not become registered in the SAM database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror. Offerors may obtain information on registration and annual confirmation requirements via the SAM database accessed through <https://www.acquisition.gov>.
