215.404-4 Profit.

- (b) Policy.
- (1) Contracting officers shall use a structured approach for developing a prenegotiation profit or fee objective on any negotiated contract action when certified cost or pricing data is obtained, except for cost-plus-award-fee contracts (see $\underline{215.404-74}$, $\underline{216.405-2}$, and FAR 16.405-2) or contracts with Federally Funded Research and Development Centers (FFRDCs) (see $\underline{215.404-75}$). There are three structured approaches—
- (A) The weighted guidelines method;
- (B) The modified weighted guidelines method; and
- (C) An alternate structured approach.
- (c) Contracting officer responsibilities.
- (1) Also, do not perform a profit analysis when assessing cost realism in competitive acquisitions.
- (2) When using a structured approach, the contracting officer—
- (A) Shall use the weighted guidelines method (see 215.404-71), except as provided in paragraphs (c)(2)(B) and (c)(2)(C) of this subsection.
- (B) Shall use the modified weighted guidelines method (see $\underline{215.404-72}$) on contract actions with nonprofit organizations other than FFRDCs.
- (C) May use an alternate structured approach (see 215.404-73) when—
- (1) The contract action is—
- (i) At or below the certified cost or pricing data threshold (see FAR 15.403-4(a)(1));
- (ii) For architect-engineer or construction work;
- (iii) Primarily for delivery of material from subcontractors; or
- (iv) A termination settlement; or
- (2) The weighted guidelines method does not produce a reasonable overall profit objective and the head of the contracting activity approves use of the alternate approach in writing.
- (D) Shall use the weighted guidelines method to establish a basic profit rate under a formula-type pricing agreement, and may then use the basic rate on all actions under the agreement, provided that conditions affecting profit do not change.
- (E) Shall document the profit analysis in the contract file.
- (5) Although specific agreement on the applied weights or values for individual profit factors shall not be attempted, the contracting officer may encourage the contractor to—

- (A) Present the details of its proposed profit amounts in the weighted guidelines format or similar structured approach; and
- (B) Use the weighted guidelines method in developing profit objectives for negotiated subcontracts.
- (6) The contracting officer must also verify that relevant variables have not materially changed (e.g., performance risk, interest rates, progress payment rates, distribution of facilities capital).
- (d) Profit-analysis factors.
- (1) *Common factors*. The common factors are embodied in the DoD structured approaches and need not be further considered by the contracting officer.
