7.402 Acquisition methods.

- (a) Purchase method.
- (1) Generally, the purchase method is appropriate if the equipment will be used beyond the point in time when cumulative rental or leasing costs exceed the purchase costs.
- (2) Agencies *should* not rule out the purchase method of equipment *acquisition* in favor of renting or leasing merely because of the possibility that future technological advances might make the selected equipment less desirable.
- (b) Rent or lease method.
- (1) The rent or lease method is appropriate if it is to the Government's advantage under the circumstances. The rent or lease method *may* also serve as a short-term measure when the circumstances—
- (i) Require immediate use of equipment to meet program or system goals; but
- (ii) Do not currently support acquisition by purchase.
- (2) If a rent or lease method is justified, a rental or lease agreement with *option* to purchase is preferable.
- (3) Generally, a long term rental or lease agreement *should* be avoided, but *may* be appropriate if an *option* to purchase or other favorable terms are included.
- (4) If a rental or lease agreement with *option* to purchase is used, the contract *shall* state the purchase price or provide a formula which shows how the purchase price will be established at the time of purchase.
