36.602-1 Selection criteria.

- (a) Agencies shall evaluate each potential contractor in terms of its-
- (1) Professional qualifications necessary for satisfactory performance of required services;
- (2) Specialized experience and technical competence in the type of work required, including, where appropriate, experience in energy conservation, *pollution prevention*, *waste reduction*, and the use of *recovered materials*;
- (3) Capacity to accomplish the work in the required time;
- (4) *Past performance* on contracts with Government agencies and private industry in terms of cost control, quality of work, and compliance with performance schedules;
- (5) Location in the general geographical area of the project and knowledge of the locality of the project; provided, that application of this criterion leaves an appropriate number of qualified firms, given the nature and size of the project; and
- (6) Acceptability under other appropriate evaluation criteria.
- (b) When the use of design competition is approved by the *agency head* or a designee, agencies *may* evaluate firms on the basis of their conceptual design of the project. Design competition *may* be used when-
- (1) Unique situations exist involving prestige projects, such as the design of memorials and structures of unusual national significance;
- (2) Sufficient time is available for the production and evaluation of conceptual designs; and
- (3) The design competition, with its costs, will substantially benefit the project.
- (c) Hold discussions with at least three of the most highly qualified firms regarding concepts, the relative utility of alternative methods and feasible ways to prescribe the use of *recovered materials* and achieve *waste reduction* and energy-efficiency in facility design (see <u>part 23</u>).
