36.702 Forms for use in contracting for architect-engineer services.

- (a) Contracting officers must use <u>Standard Form 252</u>, Architect-Engineer Contract, to award fixed-price contracts for architect-engineer services when the services will be performed in the *United States* or its outlying areas.
- (b) The <u>SF 330</u>, Architect-Engineer Qualifications, *shall* be used to evaluate firms before awarding a contract for *architect-engineer services*:
- (1) Use the <u>SF 330</u>, Part I-Contract-Specific Qualifications, to obtain information from an architect-engineer firm about its qualifications for a specific contract when the contract amount is expected to exceed the *simplified acquisition threshold*. Part I *may* be used when the contract amount is expected to be at or below the *simplified acquisition threshold*, if the *contracting officer* determines that its use is appropriate.
- (2) Use the <u>SF 330</u>, Part II-General Qualifications, to obtain information from an architect-engineer firm about its general professional qualifications.
