

Part 41 - Acquisition of Utility Services

Subpart 41.1 - General

41.100 Scope of part.

41.101 Definitions.

41.102 Applicability.

41.103 Statutory and delegated authority.

Subpart 41.2 - Acquiring Utility Services

41.201 Policy.

41.202 Procedures.

41.203 GSA assistance.

41.204 GSA areawide contracts.

41.205 Separate contracts.

41.206 Interagency agreements.

Subpart 41.3 - Requests for Assistance

41.301 Requirements.

Subpart 41.4 - Administration

41.401 Monthly and annual review.

41.402 Rate changes and regulatory intervention.

Subpart 41.5 - Solicitation Provision and Contract Clauses

41.501 Solicitation provision and contract clauses.

Subpart 41.6 - Forms

41.601 Utility services forms.

Subpart 41.7 - Formats

41.701 Formats for utility service specifications.

41.702 Formats for annual utility service review.

Parent topic: Federal Acquisition Regulation

Subpart 41.1 - General

41.100 Scope of part.

This part prescribes policies, procedures, and contract format for the *acquisition* of utility services. (See [41.102\(b\)](#) for services that are excluded from this part.)

41.101 Definitions.

As used in this part,

Areawide contract means a contract entered into between the General Services Administration (GSA) and a utility service supplier to cover utility service needs of *Federal agencies* within the *franchise territory* of the supplier. Each *areawide contract* includes an "Authorization" form for requesting service, connection, disconnection, or change in service.

Authorization means the document executed by the ordering agency and the utility supplier to order service under an *areawide contract*.

Connection charge means all nonrecurring costs, whether refundable or nonrefundable, to be paid by the Government to the utility supplier for the required connecting facilities, which are installed, owned, operated, and maintained by the utility supplier (see *Termination liability*).

Delegated agency means an agency that has received a written delegation of authority from GSA to contract for utility services for periods not exceeding ten years (see [41.103\(b\)](#)).

Federal Power and Water Marketing Agency means a Government entity that produces, manages, transports, controls, and sells electrical and water supply service to customers.

Franchise territory means a geographical area that a utility supplier has a right to serve based upon a franchise, a certificate of public convenience and necessity, or other legal means.

Intervention means action by GSA or a *delegated agency* to formally participate in a utility regulatory proceeding on behalf of all Federal *executive agencies*.

Multiple service locations means the various locations or delivery points in the utility supplier's service area to which it provides service under a single contract.

Rates may include rate schedules, riders, rules, terms and conditions of service, and other tariff and service charges, *e.g.*, facilities use charges.

Separate contract means a utility services contract (other than a GSA *areawide contract*, an *Authorization* under an *areawide contract*, or an interagency agreement), to cover the *acquisition* of utility services.

Termination liability means a contingent Government obligation to pay a utility supplier the unamortized portion of a *connection charge* and any other applicable nonrefundable service charge as defined in the contract in the event the Government terminates the contract before the cost of connection facilities has been recovered by the utility supplier (see "*Connection charge*").

Utility service means a service such as furnishing electricity, natural or manufactured gas, water, sewerage, thermal energy, chilled water, steam, hot water, or high temperature hot water. The application of [part 41](#) to other services (*e.g.*, rubbish removal, snow removal) *may* be appropriate when the *acquisition* is not subject to the [41 U.S.C. chapter 67](#), Service Contract Labor Standards (see [37.107](#)).

41.102 Applicability.

(a) Except as provided in paragraph (b) of this section, this part applies to the *acquisition* of utility services for the Government, including *connection charges* and *termination liabilities*.

(b) This part does not apply to-

(1) Utility services produced, distributed, or sold by another *Federal agency*. In those cases, agencies *shall* use interagency agreements (see [41.206](#));

(2) Utility services obtained by purchase, exchange, or otherwise by a Federal power or water marketing agency incident to that agency's marketing or distribution program;

(3) Cable television (CATV) and telecommunications services;

(4) *Acquisition* of natural or manufactured gas when purchased as a commodity;

(5) *Acquisition* of utilities services in foreign countries;

(6) *Acquisition* of rights in real property, *acquisition* of public utility facilities, and on-site equipment needed for the facility's own distribution system, or *construction/maintenance* of Government-owned equipment and real property; or

(7) Third party financed shared-savings projects authorized by [42 U.S.C. 8287](#). However, agencies *may* utilize [part 41](#) for any energy savings or purchased utility service directly resulting from implementation of a third party financed shared-savings project under [42 U.S.C.8287](#) for periods not to exceed 25 years.

41.103 Statutory and delegated authority.

(a) Statutory authority.

(1) The General Services Administration (GSA) is authorized by [40 U.S.C. 501](#) to prescribe policies and methods governing the *acquisition* and supply of utility services for *Federal agencies*. This authority includes related functions such as managing public utility services and representing *Federal agencies* in proceedings before Federal and state regulatory bodies. GSA is authorized by [40 U.S.C.501](#) to contract for utility services for periods not exceeding tenyears.

(2) The Department of Defense (DoD) is authorized by [10 U.S.C. 3201\(a\)](#) and [40 U.S.C. 113\(e\)\(3\)](#) to acquire utility services for military facilities.

(3) The Department of Energy (DOE) is authorized by the Department of Energy Organization Act ([42 U.S.C.7251](#), *etseq.*) to acquire utility services. DOE is authorized by the Atomic Energy Act

of 1954, as amended ([42 U.S.C. 2204](#)), to enter into new contracts or modify existing contracts for electric services for periods not exceeding 25 years for uranium enrichment installations.

(b) *Delegated authority.* GSA has delegated its authority to enter into utility service contracts for periods not exceeding ten years to DoD and DOE, and for *connection charges* only to the Department of Veteran Affairs. *Contracting* pursuant to this delegated authority *shall* be consistent with the requirements of this part. Other agencies requiring utility service contracts for periods over one year, but not exceeding ten years, *may* request a delegation of authority from GSA at the address specified in [41.301\(a\)](#). In keeping with its statutory authority, GSA will, as necessary, conduct reviews of *delegated agencies' acquisitions* of utility services to ensure compliance with the terms of the delegation and applicable laws and regulations.

(c) Requests for delegations of *contracting* authority from GSA *shall* include a certification from the acquiring agency's *Senior Procurement Executive* that the agency has-

- (1) An established *acquisition* program;
- (2) Personnel technically qualified to deal with specialized utilities problems; and
- (3) The ability to accomplish its own pre-award contract review.

Subpart 41.2 - Acquiring Utility Services

41.201 Policy.

(a) Subject to paragraph (d) of this section, it is the policy of the Federal Government that agencies obtain required utility services from sources of supply which are most advantageous to the Government in terms of economy, efficiency, reliability, or service.

(b) Except for *acquisitions* at or below the *simplified acquisition threshold*, agencies *shall* acquire utility services by a bilateral written contract, which *must* include the clauses required by [41.501](#), regardless of whether rates or terms and conditions of service are fixed or adjusted by a regulatory body. Agencies *may* not use the utility supplier's forms and clauses to avoid the inclusion of provisions and clauses required by [41.501](#) or by statute. (See [41.202\(c\)](#) for procedures to be used when the supplier refuses to execute a written contract.)

(c) Specific operating and management details, such as procedures for internal agency contract assistance and review, delegations of authority, and approval thresholds, *may* be prescribed by an individual agency subject to compliance with applicable statutes and regulations.

(d)

(1) Section 8093 of the Department of Defense Appropriations Act of 1988, Pub.L.100-202, provides that none of the funds appropriated by that Act or any other Act with respect to any fiscal year by any department, agency, or instrumentality of the *United States*, *may* be used for the purchase of electricity by the Government in any manner that is inconsistent with state law governing the providing of electric utility service, including state utility commission rulings and electric utility franchises or service territories established pursuant to state statute, state regulation, or state-approved territorial agreements.

(2) The Act does not preclude-

- (i) The head of a *Federal agency* from entering into a contract pursuant to [42 U.S.C.8287](#) (which pertains to the subject of shared energy savings including cogeneration);
- (ii) The Secretary of a military department from entering into a contract pursuant to [10 U.S.C. 2922a](#) (which pertains to contracts for energy or fuel for military installations including the provision and operation of energy production facilities); or
- (iii) The Secretary of a military department from purchasing electricity from any provider when the utility or utilities having applicable state-approved franchise or other service authorizations are found by the Secretary to be unwilling or unable to meet unusual standards for service reliability that are necessary for purposes of *national defense*.

(3) Additionally, the head of a *Federal agency may*-

- (i) Consistent with applicable state law, enter into contracts for the purchase or transfer of electricity to the agency by a non-utility, including a qualifying facility under the Public Utility Regulatory Policies Act of 1978;
 - (ii) Enter into an interagency agreement, pursuant to [41.206](#) and [17.5](#), with a Federal power marketing agency or the Tennessee Valley Authority for the transfer of electric power to the agency; and
 - (iii) Enter into a contract with an electric utility under the authority or tariffs of the Federal Energy Regulatory Commission.
- (e) Prior to acquiring electric utility services on a competitive basis, the *contracting officer shall* determine, with the advice of legal counsel, by a market survey or any other appropriate means, *e.g.*, consultation with the state agency responsible for regulating public utilities, that such competition would not be inconsistent with state law governing the provision of electric utility service, including state utility commission rulings and electric utility franchises or service territories established pursuant to state statute, state regulation, or state-approved territorial agreements. Proposals from alternative electric suppliers *shall* provide a representation that service can be provided in a manner consistent with section 8093 of Public Law 100-202 (see [41.201\(d\)](#)).

41.202 Procedures.

- (a) Prior to executing a utility service contract, the *contracting officer shall* comply with [parts 6 and 7](#) and subsections [41.201\(d\)](#) and (e) of this part. In accordance with [parts 6 and 7](#), agencies *shall* conduct market surveys and perform *acquisition planning* in order to promote and provide for *full and open competition* provided that the *contracting officer* determines that any resultant contract would not be inconsistent with applicable state law governing the provision of electric utility services. If competition for an entire utility service is not available, the market survey *may* be used to determine the availability of competitive sources for certain portions of the requirement. The scope of the term "entire utility service" includes the provision of the utility service capacity, energy, water, sewage, transportation, standby or back-up service, transmission and/or distribution service, quality assurance, system reliability, system operation and maintenance, metering, and billing.
- (b) In performing a market survey (see [7.101](#)), the *contracting officer shall* consider, in addition to alternative competitive sources, use of the following:

(1) GSA areawide contracts (see [41.204](#)).

(2) Separate contracts (see [41.205](#)).

(3) Interagency agreements (see [41.206](#)).

(c) When a utility supplier refuses to execute a tendered contract as outlined in [41.201\(b\)](#), the agency *shall* obtain a written definite and final refusal signed by a corporate officer or other responsible official of the supplier (or if unobtainable, document any unwritten refusal) and transmit this document, along with statements of the reasons for the refusal and the record of negotiations, to GSA at the address specified at [41.301\(a\)](#). Unless urgent and compelling circumstances exist, the *contracting officer shall* notify GSA prior to acquiring utility services without executing a tendered contract. After such notification, the agency *may* proceed with the *acquisition* and pay for the utility service under the provisions of [31 U.S.C. 1501\(a\)\(8\)](#)-

(1) By issuing a *purchase order* in accordance with [13.302](#); or

(2) By ordering the necessary utility service and paying for it upon the presentation of an *invoice*, provided that a determination is approved by the *head of the contracting activity* that a written contract cannot be obtained and that the issuance of a *purchase order* is not feasible.

(d) When obtaining service without a bilateral written contract, the *contracting officer shall* establish a utility history file on each *acquisition* of utility service provided by a contractor. This utility history file *shall* contain, in addition to applicable documents in [4.803](#), the following information:

(1) The unsigned, tendered contract and any related letter of transmittal.

(2) The reasons stated by the utility supplier for not executing the tendered contract, the record of negotiations, and a written definite and final refusal by a corporate officer or other responsible official of the supplier (or if unobtainable, documentation of unwritten refusal).

(3) Services to be furnished and the estimated annual cost.

(4) Historical record of any applicable connection charges.

(5) Historical record of any applicable ongoing capital credits.

(6) A copy of the applicable rate schedule.

(e) If the Government obtains utility service pursuant to paragraph (c) of this section, the *contracting officer shall*, on an annual basis beginning from the date of final refusal, take action to execute a bilateral written contract. The *contracting officer shall* document the utility history file with the efforts made and the agency *shall* notify GSA, *in writing*, if the utility continues to refuse to execute a bilateral contract.

41.203 GSA assistance.

(a) GSA will, upon request, provide technical and *acquisition* assistance, or will delegate its *contracting* authority for the furnishing of the services described in this part for any *Federal agency*, mixed-ownership Government corporation, the District of Columbia, the Senate, the House of Representatives, or the Architect of the Capitol and any activity under the Architect's direction.

(b) Agencies, seeking assistance *shall* provide upon request by GSA the information listed in [41.301](#).

41.204 GSA areawide contracts.

(a) *Purpose*. GSA enters into areawide contracts (see [41.101](#)) for use by *Federal agencies*. Areawide contracts provide a pre-established contractual vehicle for ordering utility services under the conditions in paragraph (c)(1) of this section.

(b) Features.

(1) Areawide contracts generally provide for ordering utility service at rates approved and/or established by a regulatory body and published in a tariff or rate schedule. However, agencies are permitted to negotiate other rates and terms and conditions of service with the supplier (see paragraph (c) of this section). Rates other than those published *may* require the approval of the regulatory body.

(2) Areawide contracts are negotiated with utility service suppliers for the provision of service within the supplier's franchise territory or service area.

(3) Due to the regulated nature of the utility industry, as well as statutory restrictions associated with the *procurement* of electricity (see [41.201\(d\)](#)), competition is typically not available within the entire geographical area covered by an areawide contract, although it *may* be available at specific locations within the utility's service area. When competing suppliers are available, the provisions of paragraph (c)(1) of this section apply.

(c) Procedures for obtaining service.

(1) Any *Federal agency* having a requirement for utility services within an area covered by an areawide contract *shall* acquire services under that areawide contract unless-

(i) Service is available from more than one supplier, or

(ii) The *head of the contracting activity* or designee otherwise determines that use of the areawide contract is not advantageous to the Government. If service is available from more than one supplier, service *shall* be acquired using competitive *acquisition* procedures (see [41.202\(a\)](#)). The determination required by paragraph (c)(1)(ii) of this section *shall* be documented in the contract file with an information copy furnished to GSA at the address in [41.301\(a\)](#).

(2) Each areawide contract includes an authorization form for ordering service, connection, disconnection, or change in service. Upon execution of an authorization by the *contracting officer* and utility supplier, the utility supplier is required to furnish services, without further negotiation, at the current, applicable published or unpublished rates, unless other rates, and/or terms and conditions are separately negotiated by the *Federal agency* with the supplier.

(3) The *contracting officer* *shall* execute the Authorization, and attach it to a [Standard Form \(SF\) 26](#), Award/Contract, along with any modifications such as connection charges, special facilities, or service arrangements. The *contracting officer* *shall* also attach any specific fiscal, operational, and administrative requirements of the agency, applicable rate schedules, technical information and detailed maps or drawings of delivery points, details on Government ownership, maintenance, or repair of facilities, and other information deemed necessary to fully define the service conditions in

the Authorization/contract.

(d) *List of areawide contracts.* A list of current GSA areawide contracts is available from the GSA office specified at [41.301\(a\)](#). The list identifies the types of services and the geographic area served. A copy of the contract *may* also be obtained from this office.

(e) *Notification.* Agencies *shall* provide GSA at the address specified at [41.301\(a\)](#) a copy of each [SF 26](#) and executed Authorization issued under an areawide contract within 30 days after execution.

41.205 Separate contracts.

(a) In the absence of an areawide contract or interagency agreement (see [41.206](#)), agencies *shall* acquire utility services by separate contract subject to this part, and subject to agency *contracting* authority.

(b) If an agency enters into a separate contract, the *contracting officer shall* document the contract file with the following information:

- (1) The number of available suppliers.
- (2) Any special equipment, service reliability, or facility requirements and related costs.
- (3) The utility supplier's rates, connection charges, and termination liability.
- (4) Total estimated contract value (including costs in paragraphs (b)(2) and (3) of this subsection).
- (5) Any technical or special contract terms required.
- (6) Any unusual characteristics of services required.
- (7) The utility's wheeling or transportation policy for utility service.

(c) If requesting GSA assistance with a separate contract, the *requesting agency shall* furnish the technical and *acquisition* data specified in [41.205\(b\)](#), [41.301](#), and such other data as GSA *may* deem necessary.

(d) A contract exceeding a 1-year period, but not exceeding ten years (except pursuant to [41.103](#)), *may* be justified, and is usually required, where any of the following circumstances exist:

- (1) The Government will obtain lower rates, larger discounts, or more favorable terms and conditions of service.
- (2) A proposed connection charge, termination liability, or any other facilities charge to be paid by the Federal Government will be reduced or eliminated;
- (3) The utility service supplier refuses to render the desired service except under a contract exceeding a 1-year period.

41.206 Interagency agreements.

Agencies *shall* use interagency agreements (*e.g.*, consolidated purchase, joint use, or cross-service

agreements) when acquiring utility service or facilities from other Government agencies and *shall* comply with the policies and procedures at [17.502-2](#), The Economy Act.

Subpart 41.3 - Requests for Assistance

41.301 Requirements.

(a) Requests for delegations of GSA *contracting* authority assistance with a proposed contract as provided in [41.203](#), and the submission of other information required by this part, *shall* be sent or submitted to the General Services Administration (GSA) region in which service is required. The names and locations of GSA regional offices are available from the:

General Services Administration, Energy Division - PMA, 1800 F St, NW, Washington, DC 20405;
Website: <https://www.gsa.gov/energy>; Email: energy@gsa.gov in its place.

(b) Requests for *contracting* assistance for utility services *shall* be sent not later than 120 days prior to the date new services are required to commence or an existing contract will expire. Requests for assistance *shall* contain the following information:

(1) A technical description or specification of the type, quantity, and quality of service required, and a delivery schedule.

(2) A copy of any service proposal or proposed contract.

(3) Copies of all current published or unpublished rates of the utility supplier.

(4) Identification of any unusual factors affecting the *acquisition*.

(5) Identification of all available sources or methods of supply, an analysis of the cost-effectiveness of each, and a statement of the ability of each source to provide the required service, including the location and a description of each available supplier's facilities at the nearest point of service, and the cost of providing or obtaining necessary backup and other ancillary services.

(c) For new utility service requirements, the agency *shall* furnish the information in paragraph (a) of this section and the following as applicable:

(1) The date initial service is required.

(2) For the first 12 months of full service, estimated maximum demand, monthly consumption, other pertinent information (*e.g.*, demand side management, load or energy management, peak shaving, on site generation, load shaping), and annual cost of the service.

(3) Known or estimated time schedule for growth to ultimate requirements.

(4) Estimated ultimate maximum demand and ultimate monthly consumption.

(5) A simple schematic diagram or line drawing showing the meter locations, the location of the new utility facilities to be constructed on Federal property by the *Federal agency*, and any required new connection facilities on either side of the delivery point to be constructed by the utility supplier to provide the new services.

(6) Accounting and appropriation data to cover the required utility services and any connection charges required to be paid by the agency receiving such utility services.

(7) The following data concerning proposed facilities and related charges or costs:

(i) Proposed refundable or nonrefundable connection charge, termination liability, or other facilities charge to be paid by the agency, together with a description of the supplier's proposed facilities and estimated *construction* costs, and its rationale for the charge, *e.g.*, tariff provisions or policies.

(ii) A copy of the acquiring agency's estimate to make its own connection to the supplier's facilities through use of its own resources or by separate contract. When feasible, the acquiring agency *shall* provide its estimates to construct and operate its own utility facilities in lieu of participating in a cost-sharing *construction* program with the proposed utility supplier.

(d) For existing utility service, the agency *shall* furnish GSA the information in paragraph (b) of this section and the following, as applicable:

(1) A copy of the most recent 12-months' service *invoices*.

(2) A tabulation, by month, for the most recent 12 months, showing the actual utility demands, consumption, connection charges, fuel adjustment charges, and the average monthly cost per unit of consumption.

(3) An estimate, by month, for the next 12 months, showing the estimated maximum demands, monthly consumption, other pertinent information (*e.g.*, demand side management, load or energy management, peak shaving, on site generation, load shaping), and annual cost of the service.

(4) Accounting and appropriation data to cover the costs for the continuation of utility services.

(5) A statement noting whether the transformer, or other system *components*, on either side of the delivery point are owned by the *Federal agency* or the utility supplier, and if the metering is on the primary or secondary side of the transformer.

Subpart 41.4 - Administration

41.401 Monthly and annual review.

Agencies *shall* review utility service *invoices* on a monthly basis and all utility accounts with annual values exceeding the *simplified acquisition threshold* on an annual basis. Annual reviews of accounts with annual values at or below the *simplified acquisition threshold* *shall* be conducted when deemed advantageous to the Government. The purpose of the monthly review is to ensure the accuracy of utility service *invoices*. The purpose of the annual review is to ensure that the utility supplier is furnishing the services to each facility under the utility's most economical, applicable rate and to examine competitive markets for more advantageous service offerings. The annual review *shall* be based upon the facility's usage, conditions and characteristics of service at each individual delivery point for the most recent 12 months. If a more advantageous rate is appropriate, the *Federal agency* *shall* request the supplier to make such rate change immediately.

41.402 Rate changes and regulatory intervention.

(a) When a change is proposed to rates or terms and conditions of service to the Government, the agency *shall* promptly determine whether the proposed change is reasonable, justified, and not discriminatory.

(b) If a change is proposed to rates or terms and conditions of service that *may* be of interest to other *Federal agencies*, and intervention before a regulatory body is considered justified, the matter *shall* be referred to GSA. The agency *may* request from GSA a delegation of authority for the agency to intervene on behalf of the consumer interests of the *Federal executive agencies* (see [41.301](#)).

(c) Pursuant to [52.241-7](#), Change in Rates or Terms and Conditions of Service for Regulated Services, if a regulatory body approves a rate change, any rate change *shall* be made a part of the contract by unilateral *contract modification* or otherwise documented in accordance with agency procedures. The approved applicable rate *shall* be effective on the date determined by the regulatory body and resulting rates and charges *shall* be paid promptly to avoid late payment provisions. Copies of the modification containing the approved rate change *shall* be sent to the agency's paying office or office responsible for verifying billed amounts (see [41.401](#)).

(d) If the utility supplier is not regulated and the rates, terms, and conditions of service are subject to negotiation pursuant to the clause at [52.241-8](#), Change in Rates or Terms and Conditions of Service for Unregulated Services, any rate change *shall* be made a part of the contract by *contract modification*, with copies sent to the agency's paying office or office responsible for verifying billed amounts.

Subpart 41.5 - Solicitation Provision and Contract Clauses

41.501 Solicitation provision and contract clauses.

(a) Because the terms and conditions under which utility suppliers furnish service *may* vary from area to area, the differences *may* influence the terms and conditions appropriate to a particular utility's *contracting* situation. To accommodate requirements that are peculiar to the *contracting* situation, this section prescribes provisions and clauses on a "substantially the same as" basis (see [52.101](#)) which permits the *contracting officer* to prepare and utilize variations of the prescribed provision and clauses in accordance with agency procedures.

(b) The *contracting officer shall* insert in *solicitations* for utility services a provision substantially the same as the provision at [52.241-1](#), Electric Service Territory Compliance Representation, when proposals from alternative electric suppliers are sought.

(c) The *contracting officer shall* insert in *solicitations* and contracts for utility services clauses substantially the same as the clauses at-

(1) [52.241-2](#), Order of Precedence-Utilities;

(2) [52.241-3](#), Scope and Duration of Contract;

(3) [52.241-4](#), Change in Class of Service;

(4) [52.241-5](#), Contractor's Facilities; and

(5) [52.241-6](#), Service Provisions.

(d) The *contracting officer shall* insert clauses substantially the same as the clauses listed below in *solicitations* and contracts under the prescribed conditions-

(1) [52.241-7](#), Change in Rates or Terms and Conditions of Service for Regulated Services, when the utility services are subject to a regulatory body. (Except for GSA areawide contracts, the *contracting officer shall* insert in the blank space provided in the clause the name of the *contracting officer*. For GSA areawide contracts, the *contracting officer shall* insert the following: "GSA and each areawide customer with annual billings that exceed \$250,000").

(2) [52.241-8](#), Change in Rates or Terms and Conditions of Service for Unregulated Services, when the utility services are not subject to a regulatory body.

(3) [52.241-9](#), Connection Charge, when a refundable connection charge is required to be paid by the Government to compensate the contractor for furnishing additional facilities necessary to supply service. (Use Alternate I to the clause if a nonrefundable charge is to be paid. When conditions require the incorporation of a nonrecurring, nonrefundable service charge or a termination liability, see paragraphs (d)(6) and (d)(4) of this section).

(4) [52.241-10](#), Termination Liability, when payment is to be made to the contractor upon termination of service in conjunction with or in lieu of a connection charge upon completion of the facilities.

(5) [52.241-11](#), Multiple Service Locations (as defined in [41.101](#)), when providing for possible alternative service locations, except under areawide contracts, is required.

(6) [52.241-12](#), Nonrefundable, Nonrecurring Service Charge, when the Government is required to pay a nonrefundable, nonrecurring membership fee, a charge for initiation of service, or a contribution for the cost of facilities *construction*. The Government *may* provide for inclusion of such agreed amount or fee as a part of the connection charge, a part of the initial payment for services, or as periodic payments to fulfill the Government's obligation.

(7) [52.241-13](#), Capital Credits, when the Federal Government is a member of a cooperative and is entitled to capital credits, consistent with the bylaws and governing documents of the cooperative.

(e) Depending on the conditions that are appropriate for each *acquisition*, the *contracting officer shall* also insert in *solicitations* and contracts for utility services the provisions and clauses prescribed elsewhere in the FAR.

Subpart 41.6 - Forms

41.601 Utility services forms.

(a) If acquiring utility services under other than an areawide contract, a *purchase order* or an interagency agreement, the [Standard Form \(SF\) 33](#), *Solicitation, Offer and Award*; [SF 26](#), *Award/Contract*; or [SF 1447](#), *Solicitation/Contract*, shall be used.

(b) The *contracting officer shall* incorporate the applicable rate schedule in each contract, *purchase*

order or modification.

Subpart 41.7 - Formats

41.701 Formats for utility service specifications.

(a) The following specification formats for use in acquiring utility services are available from the address specified at [41.301](#)(a) and *may* be used and modified at the agency's discretion:

(1) Electric service.

(2) Water service.

(3) Steam service.

(4) Sewage service.

(5) Natural gas service.

(b) *Contracting officers may* modify the specification format referenced in paragraph (a) of this section and attach technical items, details on Government ownership of equipment and real property and maintenance or repair obligations, maps or drawings of delivery points, and other information deemed necessary to fully define the service conditions.

(c) The specifications and attachments (see paragraph (b) of this section) *shall* be inserted in Section C of the utility service *solicitation* and contract.

41.702 Formats for annual utility service review.

(a) Formats for use in conducting annual reviews of the following utility services are available from the address specified at [41.301](#)(a) and *may* be used at the agency's discretion:

(1) Electric service.

(2) Gas service.

(3) Water and sewage service.

(b) *Contracting officers may* modify the annual utility service review format as necessary to fully cover the service used.
