(v) The Director of the Defense Logistics Agency.

(2) The supporting documentation for the determination shall include an analysis and written certification by the requiring activity, with specificity, why alternatives that would not require a domestic nonavailability determination are unacceptable.

(3) Defense agencies other than the Defense Logistics Agency shall follow the procedures at PGI

225.7002-2 (b)(3) when submitting a request for a domestic nonavailability determination.

(c) Acquisitions of items listed in FAR 25.104(a).

(d) Acquisitions outside the United States in support of combat operations.

(k) Acquisitions of waste and byproducts of cotton or wool fiber for use in the production of propellants and explosives.

(l) Acquisitions of foods manufactured or processed in the United States, regardless of where the foods (and any component if applicable) were grown or produced. However, in accordance with section 8118 of the DoD Appropriations Act for Fiscal Year 2005 (Pub. L. 108-287), this exception does not apply to fish, shellfish, or seafood manufactured or processed in the United States or fish, shellfish, or seafood contained in foods manufactured or processed in the United States.

(m) Acquisitions of fibers and yarns that are for use in synthetic fabric or coated synthetic fabric (but not the purchase of the synthetic or coated synthetic fabric itself), if—

(1) The fabric is to be used as a component of an end product that is not a textile product. Examples of textile products, made in whole or in part of fabric, include—

(i) Draperies, floor coverings, furnishings, and bedding (Product or Service Group (PSG) 72, Household and Commercial Furnishings and Appliances);

(ii) Items made in whole or in part of fabric in PSG 83, Textile/leather/furs/apparel/findings/tents/flags, or PSG 84, Clothing, Individual Equipment and Insignia;

- (o) Acquisitions that are interagency, State, or local purchases that are executed by DoD as a result of the transfer of contracts from the General Services Administration or for which DoD serves as an item manager for products on behalf of the General Services Administration. According to section 897 of the National Defense Authorization Act for Fiscal Year 2016 (Pub. L. 114-92), such contracts shall not be subject to requirements under subchapter II of chapter 385, United States Code (including 10 U.S.C. 4862), to the extent such contracts are for purchases of products by other Federal agencies or State or local governments.

225.7002-3 Contract clauses.

Unless an exception at 225.7002-2 applies—

- (a) Use the clause at 252.225-7012 , Preference for Certain Domestic Commodities, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial products and commercial services.
- (b) Use the clause at 252.225-7015 , Restriction on Acquisition of Hand or Measuring Tools, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial products and commercial services, that exceed the threshold at 225.7002-2(a) that require delivery of hand or measuring tools.
- (c) Use the clause at 252.225-7006 , Acquisition of the American Flag, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial products and commercial services, that are for the acquisition of the American flag, with an estimated value that exceeds the threshold at 225.7002-2(a).

225.7003 Restrictions on acquisition of specialty metals.

225.7003-1 Definitions.

As used in this section—

“Alloy” means a metal consisting of a mixture of a basic metallic element and one or more metallic, or non-metallic, alloying elements.

- (1) For alloys named by a single metallic element (e.g., titanium alloy), it means that the alloy contains 50 percent or more of the named metal (by mass).
- (2) If two metals are specified in the name (e.g., nickel-iron alloy), those metals are the two

predominant elements in the alloy, and together they constitute 50 percent or more of the alloy (by mass).

“Automotive item”—

(1) Means a self-propelled military transport tactical vehicle, primarily intended for use by military personnel or for carrying cargo, such as—

- (i) A high-mobility multipurpose wheeled vehicle;
- (ii) An armored personnel carrier; or
- (iii) A troop/cargo-carrying truckcar, truck, or van; and

(2) Does not include—

- (i) A commercially available off-the-shelf vehicle; or
- (ii) Construction equipment (such as bulldozers, excavators, lifts, or loaders) or other self-propelled equipment (such as cranes or aircraft ground support equipment).

“Commercial derivative military article” means an item acquired by the Department of Defense that is or will be produced using the same production facilities, a common supply chain, and the same or similar production processes that are used for the production of articles predominantly used by the general public or by nongovernmental entities for purposes other than governmental purposes.

“Electronic component” means an item that operates by controlling the flow of electrons or other electrically charged particles in circuits, using interconnections of electrical devices such as resistors, inductors, capacitors, diodes, switches, transistors, or integrated circuits. The term does not include structural or mechanical parts of an assembly containing an electronic component and does not include any high performance magnets that may be used in the electronic component.

“High performance magnet” means a permanent magnet that obtains a majority of its magnetic properties from rare earth metals (such as samarium).

“Produce” means—

- (1) Atomization;
- (2) Sputtering; or
- (3) Final consolidation of non-melt derived metal powders.

“Specialty metal” means—

(1) Steel—

(i) With a maximum alloy content exceeding one or more of the following limits: manganese, 1.65 percent; silicon, 0.60 percent; or copper, 0.60 percent; or

(ii) Containing more than 0.25 percent of any of the following elements: aluminum, chromium, cobalt, molybdenum, nickel, niobium (columbium), titanium, tungsten, or vanadium;

(2) Metal alloys consisting of—

- (i) Nickel or iron-nickel alloys that contain a total of alloying metals other than nickel and iron in excess of 10 percent; or
- (ii) Cobalt alloys that contain a total of alloying metals other than cobalt and iron in excess of 10 percent;
- (3) Titanium and titanium alloys; or
- (4) Zirconium and zirconium alloys.

“Steel” means an iron alloy that includes between .02 and 2 percent carbon and may include other elements.

225.7003-2 Restrictions.

- (a) The following restrictions implement 10 U.S.C. 4863. Except as provided in 225.7003-3 —
 - (1) Do not acquire the following items, or any components of the following items, unless any specialty metals contained in the items or components are melted or produced in the United States (also see guidance at 225.7003-2 (a)):
 - (i) Aircraft.
 - (ii) Missile or space systems.
 - (iii) Ships.
 - (iv) Tank or automotive items.
 - (v) Weapon systems.
 - (vi) Ammunition.
 - (2) Do not acquire a specialty metal (e.g., raw stock, including bar, billet, slab, wire, plate, and sheet; castings; and forgings) as an end item, unless the specialty metal is melted or produced in the United States. This restriction applies to specialty metal acquired by a contractor for delivery to DoD as an end item, in addition to specialty metal acquired by DoD directly from the entity that melted or produced the specialty metal.
- (b) For more information on specialty metals restrictions and reporting of noncompliances, see <https://www.acq.osd.mil/asda/dpc/cp/ic/specialty-metals-restrictions.html> .

225.7003-3 Exceptions.

- (a) Acquisitions in the following categories are not subject to the restrictions in 225.7003-2 :
 - (1) Acquisitions at or below the simplified acquisition threshold.
 - (2) Acquisitions outside the United States in support of combat operations.
 - (3) Acquisitions in support of contingency operations.

(4) Acquisitions for which the use of other than competitive procedures has been approved on the basis of unusual and compelling urgency in accordance with FAR 6.302-2.

(5) Acquisitions of items specifically for commissary resale.

(6) Acquisitions of items for test and evaluation under the foreign comparative testing program (10 U.S.C. 2350a(g)). However, this exception does not apply to any acquisitions under follow-on production contracts.

(b) One or more of the following exceptions may apply to an end item or component that includes any of the following, under a prime contract or subcontract at any tier. The restrictions in 225.7003-2 do not apply to the following:

(1) Electronic components, unless the Secretary of Defense, upon the recommendation of the Strategic and Critical Materials Board of Directors pursuant to 50 U.S.C. 98h-1, determines that the domestic availability of a particular electronic component is critical to national security.

(2)(i) Commercially available off-the-shelf (COTS) items containing specialty metals, except the restrictions do apply to contracts or subcontracts for the acquisition of—

(A) Specialty metal mill products, such as bar, billet, slab, wire, plate, and sheet, that have not been incorporated into end items, subsystems, assemblies, or components. Specialty metal supply contracts issued by COTS producers are not subcontracts for the purposes of this exception;

(B) Forgings or castings of specialty metals, unless the forgings or castings are incorporated into COTS end items, subsystems, or assemblies;

(C) Commercially available high performance magnets that contain specialty metal, unless such high performance magnets are incorporated into COTS end items or subsystems (see PGI 225.7003-3 (b)(6) for a table of applicability of specialty metals restrictions to magnets); and

(D) COTS fasteners, unless—

(1) The fasteners are incorporated into COTS end items, subsystems, or assemblies; or

(2) The fasteners qualify for the commercial product exception in paragraph (b)(3) of this subsection.

(ii) If this exception is used for an acquisition of COTS end items valued at \$5 million or more per item, the acquiring department or agency shall submit an annual report to the Principal Director, Defense Pricing, Contracting, and Acquisition Policy, in accordance with the procedures at PGI 225.7003-3 (b)(2).

(3) Fasteners that are commercial products and are acquired under a contract or subcontract with a manufacturer of such fasteners, if the manufacturer has certified that it will purchase, during the relevant calendar year, an amount of domestically melted or produced specialty metal, in the required form, for use in the production of fasteners for sale to DoD and other customers, that is not less than 50 percent of the total amount of the specialty metal that the manufacturer will purchase to carry out the production of such fasteners for all customers.

(4) Items listed in 225.7003-2 (a), manufactured in a qualifying country or containing specialty metals melted or produced in a qualifying country.

(5) Specialty metal in any of the items listed in 225.7003-2 if the USD(A&S), or an official authorized

in accordance with paragraph (b)(5)(i) of this subsection, determines that specialty metal melted or produced in the United States cannot be acquired as and when needed at a fair and reasonable price in a satisfactory quality, a sufficient quantity, and the required form (i.e., a domestic nonavailability determination). In accordance with 10 U.S.C. 4863(m)(4), the term “required form” in this section refers to the form of the mill product, such as bar, billet, wire, slab, plate, or sheet, in the grade appropriate for the production of a finished end item to be delivered to the Government under this contract; or a finished component assembled into an end item to be delivered to the Government under the contract. See guidance in PGI 225.7003-3 (b)(5).

- (i) The secretary of the military department concerned is authorized, without power of redelegation, to make a domestic nonavailability determination that applies to only one contract. The supporting documentation for the determination shall include an analysis and written documentation by the requiring activity, with specificity, why alternatives that would not require a domestic nonavailability determination are unacceptable.
- (ii) A domestic nonavailability determination that applies to more than one contract (i.e., a class domestic nonavailability determination), requires the approval of the USD(A&S).

(A) At least 30 days before making a domestic nonavailability determination that would apply to more than one contract, the USD(A&S) will, to the maximum extent practicable, and in a manner consistent with the protection of national security and confidential business information—

- (1) Publish a notice on the in the Governmentwide point of entry (GPE) (<https://www.sam.gov>) of the intent to make the domestic nonavailability determination; and
- (2) Solicit information relevant to such notice from interested parties, including producers of specialty metal mill products.

(B) The USD(A&S)—

- (1) Will take into consideration all information submitted in response to the notice in making a class domestic nonavailability determination;
- (2) May consider other relevant information that cannot be made part of the public record consistent with the protection of national security information and confidential business information; and
- (3) Will ensure that any such domestic nonavailability determination and the rationale for the determination are made publicly available to the maximum extent consistent with the protection of national security and confidential business information.

(6) End items containing a minimal amount of otherwise noncompliant specialty metals (i.e., specialty metals not melted or produced in the United States that are not covered by another exception listed in this paragraph (b)), if the total weight of noncompliant specialty metal does not exceed 2 percent of the total weight of all specialty metal in the end item. This exception does not apply to high performance magnets containing specialty metals. See PGI 225.7003-3 (b)(6) for a table of applicability of specialty metals restrictions to magnets.

(c) *Compliance for commercial derivative military articles.* The restrictions at 225.7003-2 (a) do not apply to an item acquired under a prime contract if—

- (1) The offeror has certified, and subsequently demonstrates, that the offeror and its subcontractor(s) will individually or collectively enter into a contractual agreement or agreements to purchase a sufficient quantity of domestically melted or produced specialty metal in accordance with

the provision at 252.225-7010 ; and

(2) The USD(A&S), or the secretary of the military department concerned, determines that the item is a commercial derivative military article (defense agencies see procedures at PGI 225.7003-3(c)). The contracting officer shall submit the offeror's certification and a request for a determination to the appropriate official, through agency channels, and shall notify the offeror when a decision has been made.

(d) National security waiver. The USD(A&S) may waive the restrictions at 225.7003-2 if the USD(A&S) determines in writing that acceptance of the item is necessary to the national security interests of the United States (see procedures at PGI 225.7003-3 (d)). This authority may not be delegated.

(1) The written determination of the USD(A&S)—

(i) Shall specify the quantity of end items to which the national security waiver applies;

(ii) Shall specify the time period over which the national security waiver applies; and

(iii) Shall be provided to the congressional defense committees before the determination is executed, except that in the case of an urgent national security requirement, the determination may be provided to the congressional defense committees up to 7 days after it is executed.

(2) After making such a determination, the USD(A&S) will—

(i) Ensure that the contractor or subcontractor responsible for the noncompliant specialty metal develops and implements an effective plan to ensure future compliance; and

(ii) Determine whether or not the noncompliance was knowing and willful. If the USD(A&S) determines that the noncompliance was knowing and willful, the appropriate debarring and suspending official shall consider suspending or debarring the contractor or subcontractor until such time as the contractor or subcontractor has effectively addressed the issues that led to the noncompliance.

(3) Because national security waivers will only be granted when the acquisition in question is necessary to the national security interests of the United States, the requirement for a plan will be applied as a condition subsequent, and not a condition precedent, to the granting of a waiver.

225.7003-4 Reserved.

225.7003-5 Solicitation provision and contract clauses.

(a) Unless the acquisition is wholly exempt from the specialty metals restrictions at 225.7003-2 because the acquisition is covered by an exception in 225.7003-3 (a) or (d) (but see paragraph (d) of this section)—

(1) Use the clause at 252.225-7008 , Restriction on Acquisition of Specialty Metals, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial product, that—

(i) Exceed the simplified acquisition threshold; and

- (ii) Require the delivery of specialty metals as end items.
- (2) Use the clause at 252.225-7009 , Restriction on Acquisition of Certain Articles Containing Specialty Metals, in solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial products and commercial services, that—
 - (i) Exceed the simplified acquisition threshold; and
 - (ii) Require delivery of any of the following items, or components of the following items, if such items or components contain specialty metal:
 - (A) Aircraft.
 - (B) Missile or space systems.
 - (C) Ships.
 - (D) Tank or automotive items.
 - (E) Weapon systems.
 - (F) Ammunition.
- (b) Use the provision at 252.225-7010 , Commercial Derivative Military Article—Specialty Metals Compliance Certificate, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items,—
 - (1) That contain the clause at 252.225-7009 ; and
 - (2) For which the contracting officer anticipates that one or more offers of commercial derivative military articles may be received.
 - (c) If an agency cannot reasonably determine at time of acquisition whether some or all of the items will be used in support of combat operations or in support of contingency operations, the contracting officer should not rely on the exception at 225.7003-3 (a)(2) or (3), but should include the appropriate specialty metals clause or provision in the solicitation and contract.
 - (d) If the solicitation and contract require delivery of a variety of contract line items containing specialty metals, but only some of the items are subject to domestic specialty metals restrictions, identify in the Schedule those items that are subject to the restrictions.

225.7004 Restrictions on the procurement of goods other than U.S. goods.

225.7004-0 Scope.

This section implements 10 U.S.C. 4864.

225.7004-1 Definitions.

As used in this section—

“National technology and industrial base” means the persons and organizations that are engaged in production activities conducted within the United States, Australia, Canada, New Zealand, and the United Kingdom of Great Britain and Northern Ireland (United Kingdom). (10 U.S.C. 4801)

“Star tracker” means a navigational tool used in a satellite weighing more than 400 pounds whose principal purpose is to support the national security, defense, or intelligence needs of the U.S. Government.

225.7004-2 Restrictions.

Except as provided in 225.7004-3, do not acquire any of the following items, either as end products or components, unless the manufacturer of the items is part of the national technology and industrial base:

(a) Buses, if multipassenger motor vehicles are purchased, leased, rented, or made available under contracts for transportation services.

(b) Components for naval vessels, to the extent they are unique to marine applications (see also 225.7004-4 for implementation of the restriction for naval vessels):

(1) Gyrocompasses.

(2) Electronic navigation chart systems.

(3) Steering controls.

(4) Propulsion and machinery control systems.

(5) Totally enclosed lifeboats.

(6) Welded shipboard anchor and mooring chain. See also 225.7004-5.

(c) Large medium-speed diesel engines for new construction of auxiliary ships using funds available for National Defense Sealift Fund programs or Shipbuilding and Conversion, Navy.

(d) For T-AO 205 and T-ARC class vessels:

(1) Auxiliary equipment, including pumps, for all shipboard services.

(2) Propulsion system components, including engines, reduction gears, and propellers.

(3) Shipboard cranes.

(4) Spreaders for shipboard cranes.

(e) Star trackers.

225.7004-3 Exceptions.

- (a) Contracts under the simplified acquisition threshold. The restrictions at 225.7004-2 do not apply to a contract or subcontract that does not exceed the simplified acquisition threshold.
- (b) Buses. The restriction at 225.7004-2(a) does not apply in the following circumstances:
 - (1) Buses manufactured outside the national technology and industrial base are needed for temporary use because buses manufactured in the national technology and industrial base are not available to satisfy requirements that cannot be postponed. Such use may not, however, exceed the lead time required for acquisition and delivery of buses manufactured in the national technology and industrial base.
 - (2) The requirement for buses is temporary in nature. For example, to meet a special, nonrecurring requirement or a sporadic and infrequent recurring requirement, buses manufactured outside the national technology and industrial base may be used for temporary periods of time. Such use may not however, exceed the period of time needed to meet the special requirement.
 - (3) Buses manufactured outside the national technology and industrial base are available at no cost to the U.S. Government.
- (c) Components for naval vessels. The restriction at 225.7004-2(b) does not apply to acquisition of spare or repair parts needed to support components for naval vessels manufactured outside the United States. Support includes the purchase of spare gyrocompasses, electronic navigation chart systems, steering controls, propulsion and machinery control systems, totally enclosed lifeboats, and welded shipboard anchor and mooring chain.
- (d) Components for auxiliary ships. The restriction at 225.7004-2(c) does not apply to large medium-speed engines for icebreakers or special mission ships.
- (e) Star trackers. The restriction at 225.7004-2(e) does not apply to acquisition programs that have received Milestone A approval as defined in 10 U.S.C. 4211 before October 1, 2021, as documented by the requiring activity official performing program management responsibilities. The contracting officer shall include the Milestone A approval documentation in the contract file.

225.7004-4 Implementation of restriction on certain naval vessel components.

- (a) The statute at 10 U.S.C. 4864(h) prohibits the use of contract clauses or certifications to implement the restriction at 225.7004-2(b) for naval vessel components.
- (b) Agencies shall accomplish implementation of the restriction at 225.7004-2(b) through use of management and oversight techniques that achieve the objectives of this section without imposing a significant management burden on the Government or the contractor involved.

225.7004-5 Additional restrictions on anchor and mooring chain.

- (a) In accordance with section 8041 of the Fiscal Year 1991 DoD Appropriations Act (Pub. L. 101-511) and similar sections in subsequent DoD appropriations acts, do not acquire welded shipboard anchor and mooring chain, unless—

- (1) It is manufactured in the United States, including cutting, heat treating, quality control, testing, and welding (both forging and shot blasting process); and
- (2) The cost of the components manufactured in the United States exceeds 50 percent of the total cost of components.

(b) The statute at 10 U.S.C. 4864 also restricts acquisition of welded shipboard anchor and mooring chain, when used as a component of a naval vessel; however, the Appropriations Act restriction described in paragraph (a) of this section takes precedence over the restriction of 10 U.S.C. 4864 cited in 225.7004-2(b)(6).

225.7004-6 Waiver of restrictions.

- (a) Welded shipboard anchor and mooring chain.

- (1) In accordance with section 8016 of the Consolidated Appropriations Act, 2023 (Pub. L. 117-328), the secretary of the department responsible for acquisition may waive the restrictions in 225.7004-2(b)(6) and 225.7004-5, on a case-by-case basis, if—
 - (i) Sufficient domestic suppliers are not available to meet DoD requirements on a timely basis; and
 - (ii) The acquisition is necessary to acquire capability for national security purposes.

- (2) Document the waiver in a written determination and findings containing—

- (i) The factors supporting the waiver; and

- (ii) A certification that the acquisition must be made in order to acquire capability for national security purposes.

- (3) Provide a copy of the determination and findings to the House and Senate Committees on Appropriations.

- (b) Star trackers. The waiver criteria at paragraph (c) of this section apply, except that the USD(A&S) may delegate the authority to waive a restriction for a star tracker for a particular foreign country to the service acquisition executive, without power of redelegation (section 1603, National Defense Authorization Act for Fiscal Year 2021 (Pub. L. 116-283)).

- (c) Waiver of restrictions of 10 U.S.C. 4864(a). The restrictions on certain foreign purchases at 225.7004-2 may be waived, except as provided in paragraphs (a) and (b) of this section, as follows:

- (1)(i) USD(A&S), without power of delegation, may waive a restriction for a particular item for a particular foreign country upon determination that—

- (A) U.S. producers of the item would not be jeopardized by competition from a foreign country, and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country; or

- (B) Application of the restriction would impede cooperative programs entered into between DoD and a foreign country, or would impede the reciprocal procurement of defense items under a memorandum of understanding providing for reciprocal procurement of defense items under 225.872, and that country does not discriminate against defense items produced in the United States

to a greater degree than the United States discriminates against defense items produced in that country.

(ii) A notice of the determination to exercise the waiver authority shall be published in the Federal Register and submitted to the congressional defense committees at least 15 days before the effective date of the waiver.

(iii) The effective period of the waiver shall not exceed 1 year.

(iv) For contracts entered into prior to the effective date of a waiver, provided adequate consideration is received to modify the contract, the waiver shall be applied as directed or authorized in the waiver to—

(A) Subcontracts entered into on or after the effective date of the waiver; and

(B) Options for the procurement of items that are exercised after the effective date of the waiver, if the option prices are adjusted for any reason other than the application of the waiver.

(2) The head of the contracting activity may waive a restriction on a case-by-case basis upon execution of a determination and findings that any of the following applies:

(i) The restriction would cause unreasonable delays.

(ii) Satisfactory quality items manufactured in the national technology and industrial base are not available.

(iii) Application of the restriction would result in the existence of only one source for the item in the national technology and industrial base.

(iv) Application of the restriction is not in the national security interests of the United States.

(v) Application of the restriction would adversely affect a U.S. company.

(3) A restriction is waived when it would cause unreasonable costs. The cost of an item of national technology and industrial base origin is unreasonable if it exceeds 150 percent of the offered price, inclusive of duty, of items that are not of national technology and industrial base origin.

- (1) Is wholly manufactured in a Caribbean Basin country; or
- (2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of a Caribbean Basin country.

“Covered contract” means an energy savings performance contract, a utility services contract, or a private housing contract awarded by DoD, to be performed in the United States, if such contract results in DoD ownership of photovoltaic devices, by means other than DoD purchase as end products. DoD is deemed to own a photovoltaic device if the device is—

- (1) Installed in the United States on DoD property or in a facility owned by DoD; and
- (2) Reserved for the exclusive use of DoD in the United States for the full economic life of the device.

“Designated country photovoltaic device” means a World Trade Organization Government Procurement Agreement (WTO GPA) country photovoltaic device, a Free Trade Agreement country photovoltaic device, a least developed country photovoltaic device, or a Caribbean Basin country photovoltaic device.

“Domestic photovoltaic device” means a photovoltaic device that is manufactured in the United States.

“Foreign photovoltaic device” means a photovoltaic device other than a domestic photovoltaic device.

“Free Trade Agreement country photovoltaic device” means a photovoltaic device that—

- (1) Is wholly manufactured in a Free Trade Agreement country; or
- (2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of a Free Trade Agreement country.

“Least developed country photovoltaic device” means a photovoltaic device that—

(b) *Buy American—unreasonable cost*. For a covered contract that utilizes photovoltaic devices valued at less than \$174,000, the exception for unreasonable cost may apply (see FAR 25.103(c)). If the cost of a foreign photovoltaic device plus 50 percent is less than the cost of a domestic photovoltaic device, then the foreign photovoltaic device may be utilized.

(c) *Trade agreements*.

(1) *Free Trade Agreements*. For a covered contract that utilizes photovoltaic devices , photovoltaic devices may be utilized from a country covered under the acquisition by a Free Trade Agreement, depending upon dollar threshold (see FAR subpart 25.4).

(2) *World Trade Organization—Government Procurement Agreement*. For covered contracts that utilize photovoltaic devices that are valued at \$174,000 or more, only U.S.-made photovoltaic devices, designated country photovoltaic devices, or qualifying country photovoltaic devices may be utilized.
