

225.7004-5 Additional restrictions on anchor and mooring chain.

(a) In accordance with section 8041 of the Fiscal Year 1991 DoD Appropriations Act (Pub. L. 101-511) and similar sections in subsequent DoD appropriations acts, do not acquire welded shipboard anchor and mooring chain, unless—

- (1) It is manufactured in the United States, including cutting, heat treating, quality control, testing, and welding (both forging and shot blasting process); and
- (2) The cost of the components manufactured in the United States exceeds 50 percent of the total cost of components.

(b) The statute at 10 U.S.C. 4864 also restricts acquisition of welded shipboard anchor and mooring chain, when used as a component of a naval vessel; however, the Appropriations Act restriction described in paragraph (a) of this section takes precedence over the restriction of 10 U.S.C. 4864 cited in 225.7004-2(b)(6).
